Tuition and fees are subject to change without notice any time prior to the first day of instruction. In addition to the above figures, a \$500 per year increase will be assessed in Academic Year 2001 and 2002 for new students entering Fall 2001.

Tuition may be expected to rise annually (3% to 4% is typical). The first two years of the program include a summer session, the third year does not. Small scholarships and grants may be available through the Department of Physical Therapy or the University of Illinois at Chicago to help defray the cost of tuition. Please see the insert on Scholarships, Loans and Grants for more information.
