

ASSOCIATE/FULL PROFESSOR  
DIRECTOR, SECTION OF BIOSTATISTICS AND EPIDEMIOLOGY

Department of Preventive Medicine  
Rush University Medical Center

The Department of Preventive Medicine seeks outstanding candidates at the rank of Associate or Full Professor to lead the Section of Biostatistics and Epidemiology. The Section is comprised of faculty in applied biostatistics and longitudinal epidemiologic studies, particularly in women's health. It has a Data Management Center associated with it featuring analysts, data base programmers, and data management personnel. The Department has broad interests in the design and conduct of behavioral and multi-level clinical trials and is comprised of interdisciplinary faculty from both MD and PhD backgrounds. Expertise and interests in clinical trial methodology and/or longitudinal models is sought. The successful candidate will be a biostatistician or epidemiologist with at least 3 years of relevant experience in a collaborative interdisciplinary environment and evidence of independence as a researcher. Interest in teaching is desirable but not required.

Rush University Medical Center is ready to break ground on a new, state-of-the-art addition to the current 600-bed hospital and is consistently ranked among the best hospitals in the country. Located in the great city of Chicago, Rush is just west of downtown.

Starting salary will be commensurate with experience and qualifications. Applications will be considered as they are received until the position is filled.

Please send a CV and a statement of interest to:
