

Job Details - Research Assistant Professor (Biostatistician)

Title: Research Assistant Professor (Biostatistician)

Category: Faculty

Location: Chicago

Close Date: Feb 15, 2012

Description: The Section of Hematology/Oncology in the Department of Medicine at the University of Illinois at Chicago (UIC) is recruiting a biostatistician/clinical epidemiologist.

Duties: The candidate will collaborate with investigators specializing in sickle cell disease and benign hematology and have a leadership role in biostatistics and data management. Duties will include analysis of clinical and research data for preparation of reports, grant applications, lectures and manuscripts for publication. Ability to develop innovative statistical approaches and to analyze microarray and GWAS data is desirable. The position will include mentoring and teaching students, post-doctoral fellows and faculty members in biostatistics.

Qualifications: Ph.D. in Biostatistics or related field and demonstrated effectiveness in research on the basis of publications and/or research support. For fullest consideration, apply by 02/15/2012. UIC is an equal opportunity / affirmative action employer.
