Quizzes	<u>40</u> points (50 points total on quizzes, for a maximum of 40 points)
Total points	440 points

Letter Grades: A = 90% of course points, B = 80% of course points, C = 70% of course points, D = 60% of course points, E = below 60% of course points. However the scale may be lowered if deemed necessary. IN = Incomplete (will be assigned only under the conditions specified in the University catalog).

Teaching Method:

The classes are lecture, discussion, and problem solving oriented. You are encouraged to ask questions and provide comments as considered appropriate. You are required to read all assigned material and attempt solving the assigned homework before the subject is discussed in class. Every student is expected to participate.

Keys To Success:

1. **Commitment:** Accounting is not hard, but it's hard work. To do well, you should understand that this course requires a **serious time commitment**.
2. **Preparation:** To perform adequately in this course, you must have a thorough understanding of the text and the homework materials assigned. It is imperative you read the assigned Chapter **before you come to class**, including the warm-up exercises and the review problem. Expect the reading of each chapter to take at least **three hours to complete**.
3. **Homework:** The homework should be completed to the best of your ability and brought to class on the date due. Allocate **another three to four hours** to complete each chapter's homework. Note: The Beacon Lumber project is part of your homework.
4. **Attendance:** Regular class attendance is essential and expected. There is a direct correlation between attendance and success in the course. If you miss a class session due to sickness or emergency, it is your responsibility to obtain the class notes from a class mate. You are responsible for everything covered in all class sessions.
5. **Exams** will be based on the textbook, lectures, and homework assigned. Complete the homework not just for the calculations but for understanding the underlying concepts and principles it is conveying. **Understanding** and **interpreting** the use of accounting information is just as important as the calculation of a number. You will be tested on how well you interpret accounting information, not just on whether you can arrive at the correct number. Exams will consist of multiple choice questions and some format problems. They are to be taken as scheduled in the course calendar. There will be **no make up** exams.

6. **Academic Integrity:** In all courses, you are expected to conduct yourselves in a manner that is consistent with the university standards of academic honesty. Any student who cheats on an assignment or exam will receive a grade of "F" for the course and may be dismissed from the university.

General:

Every effort will be made to adhere to the information and schedule set forth in this syllabus. Any changes, which are necessitated as the semester progresses, will be announced on a timely basis. Regular attendance will insure that you are aware of any modification made.
