Course Description:

This course covers accounting theory and practice related to liability and stockholders equity valuation and cash flows, and their impact on income measurement and financial position.

Course Objectives:

The primary focus of this course is to advance your understanding of corporate financial reporting. We will draw on real business problems, economics, and finance to help you understand what is contained in financial reports, why the information is presented in a particular way, and how to develop and interpret financial reports.

The content of this course includes fundamental financial accounting concepts and methods. The primary objectives of this course are: (1) to gain knowledge of the functions, practices, limitations, and challenges of financial accounting, and (2) to gain a foundation for further learning in accounting and business.

Prerequisites and Accounting Major Requirements: A grade of C (or higher) *Accounting 315*.

Prerequisites: *Accounting 315* grade of “C” or higher

Course Requirements and Grading:

Your grade will consist of the following components:

Component	Point Value
EXAM #1 Chapters 13, 14, 15, 16	150
EXAM #2 Chapters 17, 19, 20	150
EXAM #3 Chapters 21, 22, 23, 24	175
Unannounced Quizzes	5-20 points each chapter
Wiley Plus Homework	1pt each problem assigned (possible penalty, please see below)
Collected Homework (Not on Wiley Plus, Manual hw)	5 points each

- **Tests**

You are expected to take the tests on time. Your score will be zero if you do not show up for the tests without notifying the instructor 24 hours in advance of the scheduled time of the test. Those of you who ask for extensions are required to provide documents that support your reasons. To be fair to other students, no extensions will be given except when absolutely necessary. No extra time will be given if you are late for the test.

- **Homework**

Each student is responsible for doing **all of the assigned homework** on

Wiley Plus: <http://edugen.wiley.com/edugen/secure/index.uni> **before the assigned due date.**

If a homework assignment cannot be found on Wiley Plus it should be completed manually and brought to class.

The homework should be completed, printed and brought to class. The assigned exercises/problems/cases will be the primary means used to cover the material. To receive credit for each homework assignment group you will be given 5 attempts per problem. **Each group of homework assignments must be at least 70% correct to receive full points. If homework is below 70% you will receive zero points for that day's assignments.**

The Wiley Plus homework problems can be printed out so you can work on them manually and then submit the answers. I strongly encourage you to work manually than submit.

If you would like to practice before beginning the homework all the brief exercises are available on Wiley Plus with answers.

Most homework problems will be reviewed in class but not all. It is expected that all material assigned should be reviewed and studied and is fair game to be included on exams and quizzes.

- **Grading**

Your grade depends on your performance in the class. The total points each student earns will be examined to determine final grades. The instructor reserves the right to utilize a curve. Normally, 90% of course points is an "A", 80% "B", 70% "C", 60% "D".

A grade of Incomplete (IN) will be assigned only under the conditions set forth in the university catalog. Please refer to the "General Course Policy" statement of the Department of Accounting for additional information.

- **Administration**

I will keep you informed via your UIC email address. Please make sure to check your UIC emails at least once a day. You will be held responsible if your failure to check your emails leads to undesired consequences.

- **Work Ethic**

Accounting courses take determination and perseverance. It is estimated in this class to obtain a grade of "B" or higher will require a **minimum of 8-10 hours per week outside the classroom**. It is expected that to obtain the base knowledge needed to do well on exams it will ***take two to three readings*** of each chapter's material.

Most likely you will not succeed in the accounting major if you are working more than 10 hours per week and taking a full-time course load.

Remember, shortly down the road there is a great paying job and a start to a great career!

HOW BAD DO YOU WANT IT?

WHAT SACRIFICES ARE YOU WILLING TO MAKE TO ACHIEVE YOUR GOAL?
