

# CBA COURSE SELECTION CHART

CBA students must complete course work in the areas of Social Sciences, Modern History and Philosophy, Literature, Advanced Quantitative Skills, and Natural Sciences. The options for satisfying these requirements are indicated below. Please refer to the [UIC Undergraduate Catalog 2005-2007](#) for course descriptions and required prerequisites.

The UIC Cultural Diversity requirement may be satisfied by completing one of the courses noted with a "●". The same course may also satisfy one of the "other general requirements" or a "nonbusiness elective". Students pursuing the Concentration in International Business should choose a social science or nonbusiness elective from the courses noted with a "▲".

Sections of Hon 107 (Interdisciplinary Honors Core in the Humanities) and Hon 108 (Interdisciplinary Honors Core in the Social Sciences) that are approved by the College of Business Administration may be used by Honors College students toward their general education requirements (in the areas of social sciences, modern history and philosophy, and literature). To determine the applicability of such credit, students should check with CBA Undergraduate Programs.
