No player may have more than one purchased skill. No one skill can be used more than twice on your team (so you can only give up to 2 players Block and up to 2 players Guard for example). This will be the team you use for all 5 games.

Weather will be rolled by each table.

In the spirit of love, apothecaries automatically work. Put the player in the reserve box.

Caused 2 more CAS than the opponent +5pts

Won by 2 or more TDs +2pts

Won by 3 or more TDs +5pts

### **Additional Rules:**

At the start of the tournament, each coach will be given two rings. Prior to the start of each game, each coach will choose two linemen for which you did not purchase any additional skills on their team to receive one +1 stat upgrade each. Linemen are the 0-12 or 0-16 players on your roster builds. The stat upgrades cannot be the same for both linemen (ex. You can't give +1 ST to both but you can give +1 ST to one and +1 MA to another). Coaches should put the rings on the linemen with the stat upgrades to mark them. At the start of each game, the stat upgrades reset to zero and the coaches will once again choose two linemen to give stat upgrades. In other words, the stat upgrades do not "stack" from one game to another, but you can change the stat increase between matches if you so choose. If you don't have an unupgraded lineman, you don't get a ring. So keep some noobies on your roster already...

**Tournament Match Ups:**
