April 25, 2006

Dear Colleagues:

The Foundation for Education and Research in Neurological Emergencies (FERNE) is pleased to participate again in the American College of Emergency Physicians (ACEP) Pediatric Emergency Medicine meeting. We would like to thank the ACEP staff for this opportunity.

Today, we will have a lunch session from **12:00 pm to 1:30 p.m. in the Empire Ballroom (Lobby Level)** where we will examine **“Challenging Pediatric Neurological Emergency Patients”**. This educational session will discuss how EM physicians should assess, diagnose, and treat pediatric patients in the ED who present with neurological emergencies.

CME credit is available to physicians through the University of Illinois at Chicago. **Please complete both an evaluation form and a request for CME form** (both are included in your packet) and turn them in to the FERNE staff in order to receive up to a maximum of 1.5 hours of category I CME credit.

FERNE has demonstrated an ongoing commitment to EM physicians and their educational needs. In doing so, we have consistently offered educational materials free of charge while expanding the scope of how practitioners are reached. If you are interested in the materials used during this meeting, please explore our website, www.ferne.org, where over 368 lectures by over 174 physicians are available for viewing and downloading.

Thank you for joining us today. Enjoy the meeting.

Sincerely,

Edward P. Sloan, MD, MPH
