A **consultant** currently or considering working with nonprofit organizations

STUDENTS TELL US...

“The Online Certificate in Nonprofit Management provided me with a level of confidence as I transitioned from a senior management role in the private sector into a development role at a university. It has also been very helpful in my two board roles - one an advisory board and one a governing board with fiduciary responsibility.”

—*Nancy McKinney • San Francisco, CA*

“Shortly after I took the financial management course I was called upon to revise my organization’s policy and procedures manual. Based on what I learned, I added a financial procedures section. From the course I had a collection of “best practice” models to consult and our treasurer was very pleased to see us adding important checks and balances to our handling of funds.”

—*Hilary Ward Schnadt • Grayslake, IL*

Improve Your Nonprofit Organization
Transform Lives

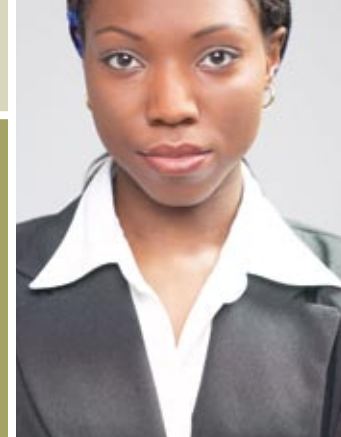

The UIC Online Certificate in Nonprofit Management emphasizes interactive learning, with seasoned instructors guiding every class. You will learn management principles across disciplines through dialogue with other nonprofit practitioners and interaction with Certificate in Nonprofit Management faculty.

The program is entirely online, which allows participants from across the country and around the world to work together and learn from each other in a stimulating e-classroom. The Certificate is comprised of six non-credit, intensive five-week courses delivered over the Web. Each class can be taken on a stand-alone basis but to earn the Certificate, you must successfully complete all six courses.

EIGHT UNIQUE BENEFITS OF THE ONLINE CERTIFICATE PROGRAM

1. Every Certificate class is facilitated by an experienced nonprofit manager – courses are created by practitioners for practitioners – in the context of a university setting.
2. Courses focus on the skills you need now. Weekly readings, course material and “homework” assignments provide students with useful worksheets, templates and links to online resources that can be immediately applied to your current work projects.
3. We offer 35 days of new ideas, best practices, networking opportunities and lessons learned from other practitioners.
4. Class size is strictly limited to 25 participants to ensure a quality learning experience.
5. Anytime. Anywhere. Our virtual classroom operates on an “asynchronous” basis, rather than fixed time. You can log on to your Certificate class at home, at the office or while traveling...wherever you have an Internet connection.
