SHORT DESCRIPTION OF STUDY SUBJECT: _____

FACULTY INFORMATION

BIOS 391 is intended to allow the undergraduate to explore a topic in the biological sciences in greater depth than he/she would encounter in one of our courses. A minimum of 1 hour per week discussing the material with you is recommended. If you feel it appropriate you may require the student write a short paper on the topic and what they learned. The final grade will be 'S' (satisfactory) or 'U' (unsatisfactory).

I have read this application and agree to work with this student on the project described above.
