Dear EXPO Participants,

Welcome to PHASE II of EXPO Registration!!

By now you should be developing a written project description called an Abstract. This abstract must be submitted by Friday, March 14th for it to be included in the EXPO Program booklet. Much preliminary work is involved and we need your abstract submitted by that deadline. We have an EXPO webpage and want you to become familiar with the material included in it.

EVERYONE, be sure to review the EXPO Information Session powerpoint and sample abstracts, now at the website:

<http://www.engr.uic.edu/expo/>

a direct link for project submittal is at:

http://www.engr.uic.edu/expo/expo2008_Phase2.htm

Time will go by quickly! See your faculty project advisor for questions on your abstract. Also, please know that this abstract will be the first introduction of your project to the Judges. They read and discuss before coming to your table. BE AWARE: If you change your project AFTER your abstract is submitted, the judges will not have an accurate description to follow and this may affect your score.

We wish you the best,

Chris Kuypers, EXPO General Chair

Dr. Goncharoff, Technical Chair
