Earth Share is an alliance of America's leading nonprofit environmental and conservation charities, working across Illinois and the nation to protect human health and the environment.

The environment is our drinking water, our neighborhood parks, our children's schools, the air we breathe and the food we eat. Take care of the environment and it will take care of you.

Through the generosity of individuals at the workplace, Earth Share's members are helping locally, nationally, and globally every day to:

- Offset the harmful effects of global warming;
- Reduce the number of asthma attacks children experience due to poor air quality;
- Eliminate industry-caused mercury in our waterways and fish that can cause health problems;
- Plant millions of trees that clean our air, reduce topsoil erosion, and provide homes for wildlife;
- Save endangered species, like the California condor and giant panda, and their habitats;
- Conserve and restore Illinois prairies and their native species; and
- Preserve open space and parks for our recreation, exercise, and wildlife.

We make it easy for you to make a difference. You can give to Earth Share of Illinois or choose your favorite organization(s).
