Health Plan Special Enrollment Period October 10-28, 2011

This is a reminder that a special enrollment period is currently underway for employee health plans. The only change that can be made at this time is a change from one health plan to another health plan. Changes become effective December 1, 2011.

The attached two documents contain detailed information about this special enrollment. In an effort to disseminate this information to as many employees as possible, please post these in your college or unit. In particular we would like to reach employees who are unable to routinely access email. Therefore, please place them by time clocks in areas such as Facility & Services, Housing, Food Services or locations in your building that have high foot traffic.
