**Updated State of Illinois Benefits
Handbook**

Central Management Services (CMS) has published updated State of Illinois Benefits Handbooks for employees and retirees.

The attached page contains detailed information about how to access the handbook. In an effort to disseminate this information to as many employees as possible, please post this page in your College or Unit. In particular we would like to reach employees who are unable to routinely access email. Therefore, please place it by time clocks or locations in your building that have high foot traffic.

If you have any questions about your benefits, please contact your campus UPB Benefits Services office at:
