

AvantGo allows you to pull information from the web and turn your PalmOS device, PocketPC, or next-generation phone into a portable information tool for free.

If you don't have an AvantGo account...

- ▶ Go to **http://www.avantgo.com**.
- ▶ Click "To Register."

- ▶ Click "Get an Account" link in the upper right corner.

Account Sign In | [Get an account](#)  
Username:   
Password:

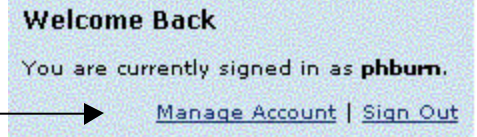

- ▶ Select a username and password of your own choosing; complete the remainder of the registration page and submit.
- ▶ You must select at least four areas of interest; you can delete Channels that you don't want after the registration process.
- ▶ Complete profile information (many of the questions have a "decline to answer" option.)
- ▶ Select the type of device that you will be using.

- ▶ Download the AvantGo client software.
- ▶ Locate and double-click the installer.
- ▶ Follow installation instructions.

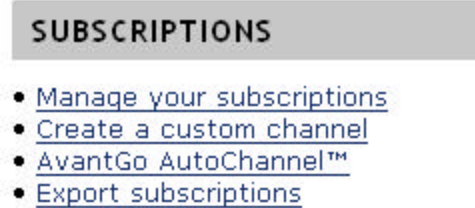

## To Create a Custom Channel on AvantGo...

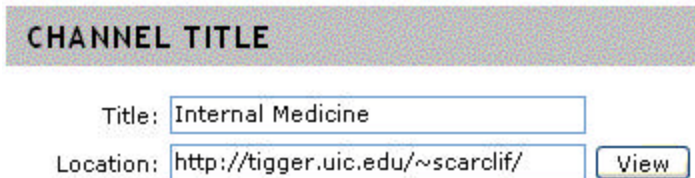

- ▶ Go to AvantGo and sign in to your account.
- ▶ Click the "Manage Account" link in the upper right corner.

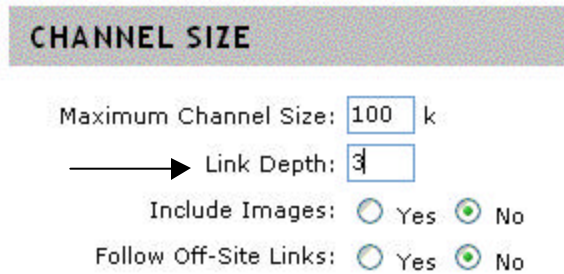

- ▶ Under "Subscriptions" select "Create a Custom Channel."

- ▶ Give the new channel a title of your choosing.
- ▶ Enter the URL of the Web site that you want.

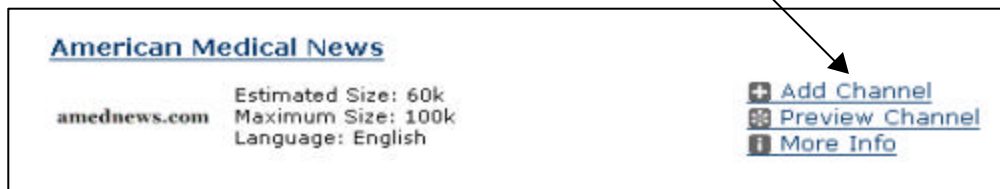

- ▶ Select settings for Channel Size.
- ▶ Change default Channel refresh options as needed.
- ▶ Click "Save Channel."

## To Add An AvantGo Channel...

- ▶ You can browse by *Category* or by *Location*, or search by *Keyword*.
- ▶ Select channel(s) that are of interest to you. Once you find a channel to your liking click "Add Channel."

## To Delete a Channel....

- ▶ Click "Manage Subscriptions."
- ▶ Check any subscriptions that you don't want.
- ▶ Click "Delete Checked."
