

CALA 21st Century Librarian Seminar Series
Team Member Report
Seminar Location: : Kunming Hotel, Yunnan, China
Seminar Dates: From: 7/5/10 to 7/8/10

Your name: Yu-Hsiu Wang

Your topics:

Electronic Reserves Services in Distance Education Environment

Your evaluation of the seminar you have participated:

Overall, I had a very positive experience participating in the seminar. I appreciated the academic exchange concerning librarianship with conference participants and presenters from Yunnan, other provinces in China, and CALA members on the team. It was interesting to learn the various topics and perspectives from each presentation, especially the current issues and challenges of academic libraries in China. We learned about the history of the Yunnan Agricultural University during the seminar. It was a pleasant arrangement to visit the University and met with library staff and administrators afterward.

We were fortunate to have the good team leadership of Shuqin Jiao. She communicated and coordinated all necessary work to prepare our team for the seminar. Also, thanks to our excellent hosts at the Yunnan Agricultural University. They made great team efforts to provide professional assistances throughout the seminar.

Your suggestions:

Perhaps a proper format to provide equitable time for each presentation would be helpful. Also, the length of each presentation should be balanced to allow sufficient Q&A session with the audiences. The scheduled activities and discussion with participants generated good interaction.
