NIH [Grant](#)—Financial assistance mechanism providing money, property, or both to an eligible entity to carry out an approved project or activity. A grant is used whenever the NIH Institute or Center anticipates no substantial programmatic involvement with the recipient during performance of the financially assisted activities.

NIH [Cooperative Agreement](#)—A support mechanism used when there will be substantial Federal scientific or programmatic involvement. Substantial involvement means that, after award, scientific or program staff will assist, guide, coordinate, or participate in project activities.

NIH [Contract](#)—An award instrument establishing a binding legal procurement relationship between NIH and a recipient obligating the latter to furnish a product or service defined in detail by NIH and binding the Institute to pay for it.

[Manuscript](#)—The Investigator's final manuscript of a peer-reviewed article accepted for journal publication, including all modifications from the peer-review process. The term “article” is used as a generic reference to all peer-reviewed publications including research reports, reviews, etc.
