NOTE: Folders 566-612, 945-946, contain **Private Matching Funders**. CAC was required to match the Annenberg Foundation grant with a two-for-one dollar match. One-half of the match came from private funds, and the other from public funds. The private funds were targeted contributions from private and corporate foundations that went toward broad school reform. Listed chronologically by date are the foundations that allowed their contributions toward broad school reform to be counted as part of CAC private match. These files contain correspondence regarding an Evaluation Grant that was awarded to CAC for its multiyear evaluation effort. The Chicago Annenberg Challenge contracted the Consortium on Chicago School Research to conduct this evaluation.
