A Feature story was added to the page about the Art and Architecture library move to Daley.

Steve Brantley is the new A+A liaison, and will work on new web page (the old page is still a link)

Ellen Starkman discussed the new reserves page. Should there be a link to this from the Services button?

The photocopying page needs to be changed so that it is not strictly about photocopying at the Daley Library. Rich McGowan will work on adapting it to all sites with Linda.

Web site evaluation: when should follow-up occur with those who presented on their projects? Perhaps in 6 months.

Sandy DeGroot and Courtney Greene should be invited to a future meeting to present their respective research studies.

The future of the Web Site Evaluation Task Force was discussed, as well as the following ideas:

- How should we learn about new research?
- Should Lectures and Forums be put in charge of arranging research brown bags?
- Should a link be placed on the ERQ page about ongoing projects that evaluate the web page?

Discussion of Library Resources Page:

- “Technical Help” should be taken out of the boxes (there is already a link to it above)
- Digital collections should become a box, Carol and Ann will work on creating a description of this category.

Web site pictures: Fall pictures will begin to appear on September 1
