

REDCap 102 Training Session

Tuesday, April 3rd, 2012
2:00 PM to 4:00 PM
COMRB 5175
College of Medicine Research Building

This two-hour session presented by Heather Kim will explore some of the more advanced capabilities of REDCap, including:

- Longitudinal Data Collection and Data Structure
- Defining Events
- Linking Forms
- Project Calendar and Scheduling
- Web Surveys
- Project-Specific Q&A

REDCap (Research Electronic Data Capture) is a secure, web-based application for building and managing online databases for the collection and entry of research data.

REDCap is provided by the Design and Analysis Core (DAC) of the Center for Clinical and Translational Science (Award#:UL1RR029879) and The UIC Cancer Center (CC) and is maintained by the IT staff at the Institute for Health Research and Policy (IHRP).
