

UIC COLLEGE OF MEDICINE
Committee on Committees
Annual Report 2008-2009

The Committee on Committees is charged with developing slates of candidates for election to standing committees of the College, advising the Dean on the appointment of persons to fill mid-term vacancies on standing committees, and reviewing the size and composition of College committees. The Committee also serves as the Senate Election Committee. During the course of the year several mid-term committee vacancies were filled. The Committee also advises the Dean regarding mid-term vacancies in committee membership

In January 2009 the Committee on Committees reviewed the Senate election procedures, distribution of Senators among the sites and number of faculty who were willing to serve on the Senate. The Committee then oversaw the election of Senators to three year terms on the UIC Faculty Senate.

The Committee collected slating information from each site's Committee on Committees for the 2009-2010 college standing committees, and prepared election slates for presentation at the annual faculty meeting of the College.

In the year ahead, the Committee expects to review the size of various committees, as this has not been done for a while. The Committee will also work to improve the number of nominees for College elections and committees as well as work toward broader representation from its departments.

Respectfully submitted,

Timothy Murphy, PhD - Chair
College of Medicine Committee on Committees
