Car Insurance

The College of Medicine Office of Student Financial Aid (COM OSFA) allocates \$676 in a student's living expenses budget for transportation. It is expected that students will use these funds for either public transportation or gas. Students who either incur expenses for Car Insurance may be eligible to increase their student budget. *Please Note: an increase to a student's budget for Car Insurance will only increase the student's eligibility for loans---not for grant or scholarship funds.*

Federal regulations permit the University of Illinois at Chicago College of Medicine Office of Student Financial Aid (COM OSFA) to adjust a student's budget *providing* the COM OSFA adheres to strict guidelines for documenting such adjustments. This information sheet has been created to assist students who need to submit a request to have their living expenses increased for Car Insurance. Important Limitations

Eligible Car Insurance must occur within the **same academic year and loan period** as the request for the increase. Any car insurance requests from the previous academic year or loan period will be denied.

The COM OSFA will only permit budget increases on one automobile per student.

A student may use federal funds to cover the cost of a Car Insurance expenses. However, annual and aggregate loan limits restrict eligibility for federal subsidized and unsubsidized loans. Students who have borrowed their loan limits may have to rely on alternative loans to fund the increase.

We encourage students to have their budget increased to cover the cost for Car Insurance only if there is absolutely no other reasonable source by which to obtain funding. Remember, under normal circumstances a student will not begin repaying the

student loan utilized for Car Insurance increase until six months after graduation, and then the student will be making payments for ten years. Please keep this in mind when making a request for additional loan assistance.
