Ah, the end of another semester and another occasion to tell you about what has been happening in your Department. I would call this the Spring or Summer edition but it seems that those seasons have yet to make an appearance here in Chicago.

The end of the school year is marked by Commencement which was on May 9 this year. I have tried to keep you informed when our students finish but this is a list of all those receiving their degrees at this ceremony:

Ph.D.

Roberto Carlos Agis-Balboa
John A. Allen
David James Ramsey
James Dean Ross
Rosalba Satta
Steven Chung-Nan Wu
Mehmet Bertran Yilmaz

James Allen and David Ramsey were able to attend the Convocation and I have posted some pictures I took:

In other wonderful news Dr. John Solaro won one of the 4 Graduate College Mentor Awards this year. John Allen won the Thesis Award. A Dean's Scholar Award was given to Kittipong Tachampa. Last but not least, Amika Singla was the Deiss Award for Biomedical Research.

If you have news you would like to share with your fellow alumni of the Department of Physiology and Biophysics e-mail me and I will include it in the next bulletin.
