Provost and Vice Chancellor for Academic Affairs

RE: Switch from Tenure Track to Non-Tenure Track Status

Based on past discussions with Dean's Council members, I have determined that it is appropriate to change the current campus policy regarding movement from the tenure track to non-tenure track status.

Previously a track switch from tenure track to non-tenure track was to occur no later than the end of the third year or beginning of the fourth year of probation. Effective immediately, the final decision for changing tracks can now be made upon completion of year four of the probationary period.
