

A message from the Dean of the Graduate College

The Graduate College at the University of Illinois at Chicago is dedicated to a simple idea: bringing together superb students with outstanding research faculty in a diverse and stimulating urban environment.

There has never been a more exciting time to pursue advanced study. New fields of learning and new approaches in traditional fields are providing today's graduate students with ideas, skills, and disciplines to shape the world around them.

UIC's 6000 graduate students are enrolled in nearly fifty PhD programs and over eighty masters programs, spanning the range of Arts, Humanities, Social Sciences, Life Sciences, Physical Sciences and Engineering. UIC has many advantages to offer: nationally ranked programs, award-winning faculty, and the most diverse graduate student body among the nation's leading research universities - all within the heart of metropolitan Chicago. UIC may justly claim to be a model for the research universities of the new century.

I invite you to make it your home.

Henri Gillet
Interim Dean

- 2) This is a self-managed application. Submit your Basic Admission Credentials (see page 2) in one envelope – application, application fee, application checklist, and official sealed transcripts – to the Office of Graduate Admissions. All other required materials must be sent to the department of interest (see pages 16-21). **If you must submit transcripts or any other documentation separately, be sure to include your name and address as it appears on your application, and your date of birth (and Social Security Number or UIN, if possible) on each document.**
- 3) All documents submitted to UIC become the property of the University. Documents will not be released to the applicant or forwarded to other institutions or agencies.
- 4) Applicants to a UIC graduate program must meet both the requirements of the UIC Graduate College **and** the UIC academic department offering the graduate program they seek. Academic departments will evaluate applications and send admissions recommendations to the Graduate College.
- 5) Each academic department establishes its application deadline and the additional application materials the department must receive before an application will be reviewed for admission. It is **the responsibility of the applicant** to be aware of additional application materials and/or credentials required, as well as the application deadlines established by the department of interest. Deadlines and additional admission requirements are listed by program on pages 14-21.
- 6) U.S. citizens or permanent residents who have attended universities outside of the U.S. should refer to pages 3 and 4 in this booklet for additional instructions regarding their international academic credentials.
- 7) International applicants have earlier application deadlines than domestic applicants (excluding applicants to certificate programs) and have additional instructions regarding their application process described in “Instructions for International Applicants” on page 3 and 4.

Graduate College Minimum Admissions Requirements for All Degree Applicants

- 1) Completion of a bachelor’s, baccalaureate, undergraduate or first university degree or an acceptable equivalent from an approved institution. International students refer to www.uic.edu/depts/oar/grad/international_requirements_grad.html. Some programs will require a professional school degree or certification. See the Graduate Program Summary, pages 17-23.
- 2) For **U.S. citizens**, undergraduate grade point average (GPA) of at least 2.75 (A=4.00) for the final 60 semester (90 quarter) hours of undergraduate degree study, including all of the work taken in the term in which the applicant began the final 60 hours of study. For **International students**, a grade point average (GPA) of at least 2.75 (A=4.00) for the last two years of the university degree which is deemed bachelor’s equivalent from each specific country. Some programs may require a higher GPA. A cumulative GPA for all work completed beyond the bachelor’s degree will be considered, if applicable.
- 3) Recommendation for admission to the UIC Graduate College by the graduate program to which application is made. All recommendations are subject to final approval by the Graduate College. Official admission decisions will be sent by the Office of Graduate Admissions.

Department Requirements for Additional Admission Credentials

- 1) Many academic departments require additional admission credentials beyond the “Basic Admissions Credentials” (completed application, official transcripts, application fee, and application checklist). The additional credentials required vary by department and may include some of the following: personal statement, portfolio, letters of recommendation, standardized test scores such as the Graduate Record Exam (GRE), the Graduate Management Admissions Test (GMAT), or Miller Analogies Test (MAT). See the Graduate Program Summary section of this booklet (pages 17-23) and consult your intended department for your specific requirements.
- 2) If your department requires additional application materials beyond the basic credentials, send those materials directly to the department, using the department address supplied in this booklet (pages 16-21).
- 3) If your department requires standardized test scores, have the testing agency send official scores to UIC. UIC test codes are listed on the back cover of this booklet.

BASIC ADMISSION CREDENTIALS REQUIRED OF ALL DEGREE APPLICANTS

Basic admission credentials required of all applicants to UIC graduate programs include the following:

- 1) Completed application form in this booklet.
- 2) Application fee.
- 3) Official academic credentials — transcripts and/or yearly marksheets as well as degree certificates.
- 4) Application Checklist.

The Application Fee

A nonrefundable application fee must be submitted with this application, unless you have previously been enrolled as a graduate student at UIC.

- The fee for U.S. citizen, permanent resident and other non-citizen applicants is \$50.
- The fee for international applicants is \$60, except certificate applicants where the fee is \$50. (Refer to the “International Applicants” section for the UIC definition of an international applicant)

Attach a bank draft or money order in U.S. currency, or personal check drawn on a U.S. bank to the top of your application payable to the “University of Illinois.” Your name as it appears on your application **must** be on your check along with your date of birth or U.S. social security number, if possible. Fee waivers are available only for applicants meeting the specific criteria listed in Question 24 in this application. University of Illinois employees requesting application fee waivers based on their employment should fill out Question 24 in this application. **Payment by credit card is only available when applying online.** Once your application has been submitted to UIC, the only payment options are by check or money order.

Transcripts/Marksheets

Official academic transcripts or official marksheets are required from those universities where (a) the applicant earned the last 60 semester (90 quarter) hours of credit toward the bachelor’s degree and (b) from all institutions attended after the bachelor’s degree institution.

Options for submitting your official transcripts or official marksheets:

- 1) Preferred option: have all required official transcripts/marksheets sent **directly to you**. DO NOT OPEN THE ENVELOPE(S). Submit your sealed transcripts/marksheets, with this application and application fee.
- 2) Request all required official transcripts/marksheets to be sent directly to UIC. Provide each registrar with a transcript cover sheet from this application to be attached to your transcripts or marksheets before mailing them to UIC.

Applicants who have academic credentials from universities outside the United States, including U.S. applicants who have participated in semester, year or summer abroad programs, should refer to the “International Applicants” section for special instructions.

APPLICANTS APPLYING TO MULTIPLE GRADUATE PROGRAMS

UIC offers applicants the opportunity to pursue more than one graduate degree at the same time, either through one of our approved joint degree programs, or through concurrent enrollment in more than one UIC program. Approved joint degree programs share a certain number of courses that are used for both degrees. Joint degree programs currently offered are: MBA/MS Accounting; MBA/MA Economics; MBA/MS Management Information Systems; MBA/MS Nursing; MPH/MS Nursing; MS Nursing/MS Health Informatics; MA Anthropology/MPH; PharmD/PhD Pharmacy; MD/MPH; MD/MBA; MPH/MBA; and MD/PhD. Applicants to the MD/MS Clinical and Translational Science and MD/PhD programs should not use this application form, but should request a special application from the UIC College of Medicine (312-996-5635).

Applicants who wish to apply to more than one degree program must submit a separate application for each department involved, even if applying to an approved joint degree program. Applicants applying to more than one program should indicate in Question 21 on all applications submitted if they intend to pursue more than one degree at a time. Only one application fee per term is required for applicants applying to more than one graduate program.

APPLICANTS APPLYING TO NON-DEGREE / AT LARGE PROGRAMS

Applicants for general, unassigned non-degree status (program code 20FS1780NDEG) must submit the application form in this booklet, application fee, and proof of a bachelor's degree or international equivalent from an accredited college or university (copies of original degree and an English translation, along with a valid TOEFL score are required for eligible international applicants). A copy of your diploma or transcript with degree conferred and date is acceptable. Although some graduate programs encourage non-degree registration, others restrict their courses to degree applicants only. **Individuals should consult the department offering the desired courses to see if they are available to non-degree applicants and for course prerequisites.** Applicants for non-degree status within a specific program should consult the program to determine if they require additional credentials. Additionally, if you later apply for and are admitted to a UIC graduate degree program, you may transfer no more than 12 UIC semester hours of acceptable credit from non-degree to degree status. Applicants requiring an F-1 or J-1 visa for full time study cannot apply as non-degree. International applicants may apply to online degree certificate programs that do not require a student visa.

APPLICANT DEFINITIONS

International Applicants are citizens or permanent residents of a country or political area other than the United States who have a residence outside the United States to which they expect to return. They are, or propose to be, temporary residents in the United States for educational purposes. **Any applicant who holds a visa or who is a citizen or resident of any country other than the United States falls under the International Applicant category and must apply by the international deadlines listed on pages 13 and 14.**
