

Transfer Requirements Guide for Art and Design – Daley College

The programs of the School of Art and Design provide students with the aesthetic and critical perspectives that are vital for careers in art and design. Central to the UIC approach are studio courses which engage students in the development of significant creative works as well as independent research using the entire University and city as a base for learning. All courses include comprehensive exposure to a wide range of possibilities for creative expression and problem solving. Upon completion of the Foundation program, students may declare a major in graphic design, industrial design, photography, studio arts, or moving image.
