

## Transfer Requirements Guide for Art History – Sauk Valley Community College

The program in the Department of Art History introduces the student to the study of both the built environment and the various forms of art: painting, sculpture, graphics, decorative arts and design. A large selection of courses covers all periods of history and most of the world's cultures. Various subjects and approaches are introduced: visual and stylistic analysis, criticism, iconography, historiography and methodology. The architecture of Chicago and its suburbs and the many local museums and galleries are a living part of the general curriculum and are specific components in specialized courses.

While many Art History graduates pursue graduate education toward scholarly careers in teaching and museum work, others are attracted to positions with foundations, architectural and art periodicals or freelance research. Many students combine study with graduate work in other fields, such as business administration, history and urban planning; and still others find themselves in a variety of related professions such as editorial work and arts management.
