

## Transfer Requirements Guide for Art History – Truman College

Our program introduces undergraduate students to the study of the built environment and the visual arts across time and space: architecture, painting, sculpture, design, and film and media arts. Beyond the chronological and geographical breadth of our fields of study, we are committed to understanding cultures through the lens of the visual. In art history classes, students are introduced to a variety of approaches including stylistic and iconographical analysis, criticism, and historiography. The architecture of Chicago and its suburbs and the many local museums and galleries are a living part of the general curriculum and are specific components in specialized courses. The department serves the entire UIC community, with students from all over campus choosing to take our classes for General Education credit and as electives.

While some of our majors pursue graduate education toward scholarly careers in teaching and museum work, others are attracted to positions with foundations, architectural and art periodicals, or freelance writing. Many students combine their art history background with further study in a wide variety of fields, such as business administration, law, library science, and urban planning. Still others find themselves in related professions such as filmmaking, editorial work, and arts management.
