

Transfer Requirements Guide for Kinesiology – Waubonsee Community College

UIC's undergraduate program in kinesiology offers concentrations in movement science and exercise and fitness. The movement science concentration is intended for students who want a strong academic program focusing on the human body. This degree prepares graduates for the rigors of graduate school and postgraduate professional training in areas such as medicine, occupational therapy, and physical therapy. The concentration in Exercise and Fitness prepares students for positions in the industry of fitness and exercise such as fitness club managers, specialized group fitness instructors, personal trainers, sports medicine assistants, and strength and conditioning instructors and coaches. The exercise and fitness concentration also provides a solid foundation for postgraduate work in physical therapy, occupational therapy, exercise physiology and other clinically-related graduate programs.
