African-American Safe Zone 101 is a training designed to increase awareness and comfort with African-American lesbian, gay, bisexual, transgender, and queer (LGBTQ) people and issues; to empower African-Americans to become allies to LGBTQ people; and to address the unique experiences and challenges that are specific to LGBTQ African-Americans.

Safe Zone is a great way to increase your cultural awareness, community involvement, and career development. All UIC faculty and staff are encouraged to attend this University-sanctioned training. Release time is generally granted according to the attendance at University Events policy. Students may enter a raffle to win an iPod.
