## **Art of Engineering**

**Your Choice – Oct. 13 or Dec. 8, 2007**

Workshop activities will show how making microchips arose from the ancient art technique of lithography. Learn how art and engineering involve similar themes (discovery, experimentation, and design). Design and make lithographic prints and explore the phenomena of other engineering techniques. Find out what a real engineering lab is like.

**Location:** University of Illinois at Chicago, 851 S. Morgan St.

**Min/Max:** 6/40

**Cost:** \$10 per girl (no cost for adults)

**Choice 1:** **Session A – Oct. 13, 2007, 10 a.m. - 12 p.m.**

Registration: 9/17/2007 - 9/28/2007

**Choice 2:** **Session B – Dec. 8, 2007, 1 - 3 p.m.**

Registration: 9/17/2007 - 11/21/2007
