

**Master of Science (MS) in Nursing
Pediatric Clinical Nurse Specialist Concentration**

Program Description

The Pediatric Clinical Nurse Specialist (CNS) concentration is designed to develop expertise in the nursing care of children with acute and chronic illness and their families in a variety of health care settings. The graduates of the Pediatric Clinical Nurse Specialist program are prepared to function as advanced practice nurses whose roles may include the following areas: teaching, research, consultation, and practice. Pediatric CNS students examine the role across the three spheres of CNS influence: the nurse/nursing practice sphere, the patient/client sphere and the organization/system sphere.

Students who complete the Pediatric Clinical Nurse Specialist program are qualified to sit for the Pediatric Clinical Nurse Specialist certification examination offered by the American Nurses Credentialing Center (ANCC).

Degree Requirements

Course #	Course Title	SH
Core Courses		
NURS 530	Introduction to the Clinical Nurse Specialist Role	1
NURS 525	Intermediate Statistics	3
NURS 526	Nursing Inquiry I	2
