

IHI Leadership Academy

Benefits of Partnering with Institute for Healthcare Innovation

- Resource for consultation and solutions for clinical or administrative issues
- Keep leaders informed on latest research and evidence with best practices
- Access to faculty from all departments in a nationally ranked college of nursing
- Joint ventures on applied research and publication opportunities

Benefits of Enrolling in the Leadership Academy

- Establish relationships with nursing administration faculty who are well versed in evidenced based management practices and current in practice environments
- Convenience of onsite presentation for leaders pressed for time
- Discovery learning methods allow participants to inter-relate knowledge, skills and abilities in the classroom
- Action plans that tie learning back to specific actions for results at work

What is the IHI Leadership Academy?

- Innovative onsite leadership development program
- Four days over four months to allow for application of learning in the workplace
- Designed to strengthen skills, knowledge and attitudes of novice to expert nurse managers, educators and clinicians who are leading at the point of care
- Evidence based management approach to meet today's competencies
- Curriculum can be customized to participants and organizations needs
- Taught by administrative nursing faculty who maintain administrative practice

What can the IHI Leadership Academy do for your organization?

- Challenge the leadership team to think across the organization using strategy maps and balanced score card methods
- Provide clinical leaders with the critical thinking, skill, and confidence to take the lead in the financial management of the business of caring
- Facilitate team cohesiveness and organizational commitment
- Focus the leadership team on their roles in achieving organizational goals beyond their areas of responsibility
- Increase the number of crucial conversations that need to take place around performance to improve safety and productivity and decrease risk
