

## NEWS FLASH

This year, SURS asked for about \$340 million, the amount required by the 1995 ramp law. That amount was appropriated. There was no attempt to repay the "loan" from pension funds of the previous two years. For next year, the ramp calls for a growth in payment of an additional \$132 million, with another increase of \$133 million the following year.

Considering how the legislature and governor fought this year, the show next year should be very interesting.
