Sources on Managing your Research Team

1. *Making the Right Moves. A Practical Guide to Scientific Management for Postdocs and New Faculty*, Second Edition, Burroughs Wellcome Fund, Howard Hughes Medical Institute, Chapter 3 available on line at <http://www.hhmi.org/labmanagement/moves.html>
2. *At the Helm --A Laboratory Navigator* by Kathy Barker, Cold Spring Harbor Laboratory Press, Cold Spring Harbor, New York, 2002. 362 pp. ISBN 0-87969-583-8. This book aims to help young scientists raise their scientific productivity by providing them an easily absorbed short course on management in the context of the single-investigator science laboratory, including adapting work styles to changes in personal circumstances, such as getting married or having children.
